# CEO/FOUNDER

# MESSAGE

“

Dear customers, partners, and employees,

I am honored to lead SN Electrical as the CEO/Founder, and I want to express my sincere gratitude for your continued support. Since our inception, we have been dedicated to delivering exceptional electrical solutions, driven by innovation, quality, and customer satisfaction. Our team of skilled professionals is committed to meeting your diverse needs, and we strive to stay at the forefront of technological advancements in the industry. With your trust and support, we will continue to provide outstanding service and contribute to a brighter future.

Thank you for being a part of our journey.

**SINETHEMBA NEKU**  
CEO/FOUNDER OF SN ELECTRICAL ENGINEERS

## About Us

SN Electrical Engineers is a leading provider of comprehensive electrical engineering solutions, specializing in PV solar installation, AC and DC work for both residential, commercial, and industrial projects. With a wealth of experience in the engineering field, we are committed to delivering high-quality services and ensuring customer satisfaction.

At SN Electrical Engineers, we offer a wide range of services to cater to the diverse needs of our clients. We are skilled in designing and installing solar systems for residential and commercial properties. We also provide AC and DC work, including fault finding, for both residential and commercial.

Additionally, our team excels in PV solar site commissioning and the issuance of Certificates of Compliance (CoC), ensuring that all installations meet industry standards and regulations. We specialize in PV solar system sizing, ensuring optimal performance and maximum energy efficiency.

As part of our commitment to quality, we conduct thorough site inspections and provide comprehensive reports, including client load analysis and PV solar site quality management. Our expertise extends to residential and commercial electrification, offering reliable electrical solutions for various building types.

Furthermore, we offer generator hire services for events, ensuring uninterrupted power supply, as well as UPS and mobile plug and play inverters for backup power solutions.

With branches in Gqeberha, Cape Town, and East London, we have a broad geographical presence to serve clients across these regions. Our headquarters and office are based in Gqeberha, where our dedicated team operates to provide efficient and prompt services.

At SN Electrical Engineers, we prioritize customer satisfaction, technical expertise, and a commitment to delivering innovative electrical engineering solutions. Contact us today for all your electrical needs, and let us power your projects with excellence.

## Vision Statement

Our vision is to be the leading provider of electrical engineering solutions in the industry. We aim to continuously expand our expertise, embrace technological advancements, and uphold the highest standards of professionalism. Through our commitment to excellence, we seek to contribute to a greener and more energy-efficient future.

## Mission Statement

Our mission at SN Electrical Engineers is to provide innovative and sustainable electrical engineering solutions that meet the diverse needs of our clients. We strive to deliver exceptional quality, reliability, and customer satisfaction in every project we undertake.

## Core values

**Integrity, Innovation, Quality, Sustainability,  
Customer Focus, Teamwork**

# Level 1 B-BBEE

PROUD CONTRIBUTOR

## BBBEE

SN Electrical Engineers is proud to be a Level 1 BBEE (Broad-Based Black Economic Empowerment) contributor, owned by a young Black male entrepreneur. We are fully committed to advancing economic transformation, promoting inclusivity, and empowering previously disadvantaged individuals within the engineering industry.

As a Level 1 BBEE contributor, we actively strive to address historical imbalances and promote equitable opportunities for all. Our ownership by a Black male youth exemplifies our dedication to fostering diversity, representation, and empowerment in the engineering sector.

We firmly believe that diversity drives innovation and enhances our ability to deliver exceptional solutions to our clients. By embracing a diverse workforce and inclusive practices, we can tap into a broad range of perspectives, experiences, and ideas, ultimately enhancing the quality and creativity of our services.

At SN Electrical Engineers, we prioritize the development and growth of our employees. We provide ongoing training, mentorship, and skills development programs to empower our team members and equip them with the knowledge and expertise needed to excel in their roles. By investing in our employees, we foster a culture of excellence and continuous improvement.

Additionally, as a Level 1 BBEE contributor, we actively seek partnerships and collaborations with other BBBEE companies and suppliers. By joining forces with like-minded organizations, we can collectively drive economic empowerment, create employment opportunities, and contribute to the overall development of previously marginalized communities.

# OUR SERVICES

For residential, commercials and industrial

- Designing and installing solar systems
- AC and DC Works
- PV solar site commissioning
- Issue of CoC
- PV solar sizing
- PV solar site inspection report
- Client load analysis
- PV solar site quality management
- Electrification
- DC and AC fault finding
- Generator Hire for events.
- Mobile plug and play Inverters.
- Panel cleaning
- Site vegetation clearing (50 kW- 100MW)
- Site Monthly inspections (5 kW- 100 MW)
- Site operations and maintenance services
- UPS

# QUALITY POLICY

We develop task-specific performance metrics  
with the following benefits.

# OUR CLIENTS

SN Electrical Engineers clients range  
from:

## GOVERNMENT

Departments /Local Authorities/State Owned

## ORGANIZATIONS

SMME'S / Private / Public

## NON-PROFIT ORGANIZATIONS

Charities/Projects/ Churches

## INDIVIDUALS

Low, mid, and high-income earners

## **SINETHEMBA NEKU** CEO/FOUNDER

Sinethemba Neku, is a young and dynamic entrepreneur with a strong educational background. Holding a BTech in Electrical Engineering and currently pursuing an MEng in Electrical Engineering.

Sinethemba's expertise and knowledge drive the success of SN Electrical Engineers.

With 7 years of experience in the industry, Sinethemba has built a reputation for excellence and innovation.

## **TEMPORARY EMPLOYEES**

We take great pride in introducing our exceptional team of 12 temporary employees, each bringing their unique expertise and skills to the table. With a combined wealth of knowledge and experience, our team is dedicated to delivering top-notch electrical engineering solutions. Equipped with PV Greencard certification, Wiremans licenses, and Trade Test qualifications, our employees showcase their expertise in the field of electrical engineering. In addition, their proficiency extends to specialized areas such as PV Mount installations, working at heights, and the completion of Solaredge and Victron courses. Our team is passionate about renewable energy and stays up to date with the latest industry advancements. Rest assured, our highly skilled and trained professionals are committed to providing unparalleled service and ensuring the success of your projects.

## **OUR ACHIEVEMENTS AND PROGRESS**

In just three years, SN Electrical has experienced remarkable growth, expanding from a team of four employees to a thriving workforce of twelve dedicated professionals. Our success can be attributed to our unwavering commitment to excellence in the residential and industrial sectors. As the leading installers specializing in quality, we have successfully secured significant contracts, solidifying our position as a trusted provider of top-notch electrical solutions. We are proud of our progress and remain focused on delivering unparalleled service as we continue to grow and meet the evolving needs of our valued customers.

Experience the power of excellence with SN  
Electrical Engineers- your trusted partner for  
top-quality electrical solutions

## WHY SHOULD YOU HIRE US?

- **Expertise and Experience:** With our founder's extensive experience in the engineering field and our team's expertise in electrical engineering, we bring a high level of knowledge and skill to every project. Our wealth of experience allows us to tackle complex challenges, provide innovative solutions, and deliver superior results.
- **Comprehensive Services:** We offer a comprehensive range of electrical engineering services, including PV solar installation, AC and DC work, site commissioning, system sizing, inspection reports, load analysis, quality management, electrification, fault finding, generator hire, UPS solutions, and mobile plug and play inverters. By providing a wide array of services, we can meet the diverse needs of our clients and offer integrated solutions under one roof.
- **Quality and Reliability:** We prioritize quality and reliability in every aspect of our work. Our commitment to adhering to industry standards, conducting thorough inspections, and implementing stringent quality control measures ensures that our clients receive top-notch solutions that meet the highest standards of excellence. We strive for reliability and aim to deliver projects that perform optimally and withstand the test of time.
- **Customer-Centric Approach:** Our clients are at the center of everything we do. We take the time to understand their specific requirements, goals, and challenges. By listening to our clients' needs and providing personalized solutions, we ensure that we deliver outcomes that align with their expectations. We value long-term relationships with our clients and strive for their complete satisfaction.

***Experience the power of excellence  
with SN Electrical - your trusted  
partner for top-quality electrical  
solutions.***
